

PRODUCT INFORMATION SHEET

ENGINE DEGREASER

PRODUCT DESCRIPTION

Engine Degreaser is a solvent based oil and grease remover suitable for all areas of heavy and light industry where flammable degreasers are permitted. The product is highly effective in dissolving and emulsifying all types of grease and oil and is easily washed off to leave a clean surface. Engine Degreaser is safe for all non-ferrous and ferrous metals.

DIRECTIONS FOR USE

Brush, spray or wipe onto surface. Allow to soak for 2 to 5 minutes. Hose off. For very dirty surfaces of thick grease a repeat application may be necessary. Results are best achieved when surfaces are mildly warm (not HOT) as this will allow the grease to be removed easily. For concrete /workshop floors: brush or rub on, hose off after 5 minutes. Ensure waste product is disposed of as per council guidelines. Chemicals should not be allowed to enter drains or storm water systems.

FIRST AID & SAFETY

Class 3 Risk: Flammable

Do not use or store near naked lights or flames, smoking or ignition sources. Where exposure to liquid or vapour may occur wear PVC gloves and chemical goggles. Do NOT use in enclosed areas, use in well ventilated areas. Considered a hazardous product. Avoid contact with skin and eyes. Wear gloves and eye protection when handling. Keep out of reach of children. If swallowed do NOT induce vomiting, seek medical advice - immediately call a POISON CENTER or doctor/physician. If skin contact occurs wash affected area and remove clothing. If in eyes, hold eyes open and flood with water for a minimum of 15 minutes. Call a Doctor.

Refer to Safety Data Sheet for more information.

FEATURES & BENEFITS

- Highly effective
- Safe for ferrous and non-ferrous metals
- Can be used on hot motors
- Economical

PACK SIZES

5 Litre: NCED5

20 Litre: NCED20
