

Dispenser Product Changeover

Before you start

- ✓ Consider all chemicals **HAZARDOUS**.
- ✓ Read label directions and Safety Data Sheets (SDS) prior to use.
- ✓ Wear Personal Protective Equipment as per the SDS such as safety glasses and suitable gloves when handling chemicals.

Remember

- ✓ **NEVER MIX CHEMICALS.**
- ✓ Refer to the SDS in the event of any spillages or accidents.

Changing the container

- ✓ Never decant chemicals from one container to another - always adjust chemical feed line to use up any remaining chemical.
- ✓ Ensure new container is close by before removing feedline.
- ✓ Carefully remove feed line from empty container, move to new container, and never move an un-sealed container.
- ✓ Ensure feed line is sitting at the bottom of the new container.
- ✓ Always change or wash gloves when changing more than one product, to avoid contamination or mixing of chemicals.
